# ESTHER LEYTUSH  //  ENGINEERING MANAGER

eleytush@gmail.com · github@mindplace · estherleytush.com

**BACKEND** Ruby, Rails, Postgresql, Mysql, RSpec & Capybara, bash & CLIs, git & Github
**FRONTEND** JavaScript of various flavors, React, HTML, CSS & Sass, Jekyll
**TOOLS** CircleCI, Datadog, Asana, Jira, CustomerIO, etc.

Curious, conscientious, driven, happy. Craftsperson building sustainable software. Thoughtful (and hopefully empathetic!) technical leadership. If you need responsible leaders who take initiative and grow via ownership, you're speaking my language and I'd like to learn yours.

───────

**Brightside** · Engineering Manager, Clinical Operations Engineering — 2021 | curr.
Team founder, direct manager to 2 senior engineers, technical team lead, jointly own roadmap and backlog with product manager. Own internal tool as a platform and solve cross-domain problems. Define org-wide engineering on-call process from scratch & broadly drive various eng org reforms. Build close relationships with all Operations teams, Customer Support, Finance, Credentialing and others to serve their needs and resolve their pains.
→ Ruby, Rails, Mysql, React, RSpec & Capybara, git & Github, bash & CLI, etc.

**Hummingbird** · Senior Software Engineer — 2021

**Betterment** · Lead Software Engineer — 2018 | 2021
Build upon a large & complex infrastructure of tools and apps. Lead team projects, promote better and best practices, help grow a sustainable codebase, mentor teammates. Own thorniest team problems, legacy platform initiatives, platform backlog. 1500+ commits, 1.2M+ lines added, 1.2M+ removed.
→ Ruby, Rails, Postgresql & Mysql, Java & gradle, React, Stimulus, RSpec & Capybara, git & Github, bash & CLI, etc.

**Karat** · Expert Interviewer — 2019 | 2020
Conduct technical interviews with software engineering candidates for clients.

**The Bacon** · Engineering Team Lead — 2016 | 2018
Tech lead on all initiatives. No project too large, too small, too old, or too new.
